

# ARMISTICE SIGNED!

**Fighting Stopped 5 A. M., Vernon Time  
Kaiser Flees to Holland---Berliners Sing "Marseillaise"  
and Shout "Long Live the German Republic"**

## EVACUATE ALSACE-LORRAINE

An armistice between Germany and the Allies and United States went into effect this morning at 11 o'clock Paris time. This announcement was made by the State Department in Washington at 2:45 o'clock Washington time. This would make the armistice effective 5 o'clock Vernon time.

The terms of the armistice provide for the immediate retirement of all German forces from Belgium and Alsace-Lorraine, the occupation of such strategic points in Germany as may be deemed essential by Marshal Foch; the immediate release of all Allied and American prisoners which is not to be reciprocated as to Germans held by the Allies; the surrender of a certain part of the German navy, together with all naval bases; the immediate disarmament and demobilization of the German army. The exact form of the armistice will be announced in Washington at 8 o'clock this morning.

According to the facts disclosed by the official statement of the State Department, the armistice was returned and signed up just a few hours before the expiration of the time limit set by Marshal Foch. From the time the terms were made known to the German representatives, the enemy was to be allowed 72 hours to answer definitely whether the terms were accepted. This period expired at 11 o'clock this morning, Paris time, when the armistice became effective.

### SUPREME WAR LORD FLEES TO HOLLAND FOR SAFETY.

Just who signed the armistice, the dispatches do not say, but it is assumed that some new authority, created by the Reichstag, performed this part of the work. The Kaiser has fled to Holland for safety.

The revolution in Germany has spread to all of the important centers. The royal palaces in Berlin have been occupied by the Red Guards. The Krupp works, long pointed to as the symbol of Germany's military might, has fallen into the hands of revolutionists.

These changes apparently have taken place without serious disorder. Following the occupation of the royal palaces in Berlin soldiers and workmen marched through the streets of the capital waving the red flag of the revolution and singing the "Marseillaise" and shouting "Long live the German Republic."

Deputy Ebert, vice president of the Social Democratic party, has been acting as chancellor and head of the provisional government since the abdication of the Kaiser and resignation of the Imperial cabinet.

The new government seems to have the situation well in hand. No disorders and no bloodshed are reported to have accompanied the revolution. The popular demand seems to be the setting up of a republic.

### HOWARD HEATH WOUNDED 13TH.

Vernon Boy Writes That Dewey Lyons and Grady Miller Were Killed in France.

N. R. Heath received this morning a letter from his son, Corporal Howard Heath, who is in an American Red Cross hospital. The letter was dated October 8, and says two wounds were received September 13. He also got some gas, and says "Outside of that I am O. K."

Howard Heath is a corporal in an automatic rifle squad. He says he went through a 5-day "Over the Top" before being wounded.

"The only ones you know that were killed were Grady Miller and Dewey Lyons. Paul Castleberry was wounded in the foot and is at the same hospital. Lost everything I had in action except what little stuff I had in my pants pockets. My money and all that I cared to keep were in my blouse and that was lost, with all my equipment. Arrived at the first aid station with a pistol that was in my hip pocket and that was all."

All of the men mentioned were in the 38th Division, which received special mention for bravery.

### MRS. O. A. SWINBURN HOSTESS.

### Guyer News.

Guyer, Nov. 6.—The farmers are most all through planting wheat. Some of the grain is looking fine since the big rain last week.

The influenza is on the decrease now in this neighborhood. Most everyone who has had it is up now.

Sunday school was well attended morning at the church. Everybody was glad to be able to go after being away on account of sickness for so long a time.

Mrs. S. P. King and daughter, Emma, are still pretty sick, but we hope they will soon be up again.

Mr. and Mrs. John Hanna and children from near Oklaunion, were visiting at Arnold Pate's home Sunday.

J. M. Pate, Gilbert and Bert Taylor, are working on the reservoir near Electra this week.

Mr. McClure and family have moved back home from the oil field at Burk Burnett, where they have been working for the past two months. We are glad to have them with us again.

Miss Rosa Trister visited Mrs. Barbarek Sunday afternoon. Mr. Barbarek's family of eleven members, have all been sick with influenza, but are all up now.

Mrs. Reynolds is very sick at this writing.

John Turner, who has been real sick with pneumonia, is almost well now.

Mr. and Mrs. B. F. Potts have received a letter from their son, Eugene, stating he had arrived in England and was well. He was seasick three days going over to England, he says. He says England is the prettiest country he ever saw. He is in the field artillery. Mr. and Mrs. Potts also had a letter from their other two sons in France. One of them said he would be at home on his twenty-first birthday for he thought the war would soon be over.

### For Colds and Grippe Doctors Advise

The Improved Calomel Tablet That Is Entirely Purified of All Nauseating and Dangerous Qualities.

Physicians are warning the public against trifling with colds, influenza and grippe. They say that a brisk calomel purgative, preferably Calotabs, the new and improved calomel tablet, should be invariably taken at bed time and repeated the second or third night, if necessary. In the earliest stages, one Calotab is usually sufficient unless the case is particularly severe.

Physicians say that it is a waste of time and is dangerous to experiment with other laxatives, as calomel is absolutely necessary sooner or later. One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with diet, work or pleasures. Next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages. Price thirty-five cents. Recommended and guaranteed by druggists everywhere. Price refunded if you are not delighted. 85-1f

### Their Medicine Chest For 20 Years

IT is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully list them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, and I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of Nature's Remedy as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in Nature's Remedy from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used Nature's Remedy for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a consoling thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a Nature's Remedy (No. 1) Tablet and will be better, healthier, happier people for it. I hope you will be one of them.

paraphernalia to employ their leisure hours.

"The Frenchman on furlough goes home; the Englishman looks for the first boat across the channel. But the American boy, 3,000 miles from home, has only the 'Y' to turn to. But the 'Y' has thought of furloughs. Away back from the firing line at Aix-les-Bains and other attractive points in France, the organization has rented great summer hotels for the use of American boys. Here the boys from the trenches may have clean beds, baths, and other conveniences that you enjoy.

"It costs a lot of money to rent these places and to serve the boys the best preachers, lecturers, actors, and motion picture films from America. But there is not a man or woman in America who thinks the best is too good for our boys on furlough.

"Prison camps are bitter places. They would be far worse were it not for the work of the Red Cross and Red Triangle. From the beginning of the war the secretaries have been carrying on their work among the prisoners. If your boy is taken prisoner he will find a 'Y' man in his prison camp. The packages you send to him will get through if there is any human way of managing it. Wherever he is in Europe, the things that you would do if you were with him will be done by the Y. M. C. A.

"Three million dollars were spent last year maintaining the soldiers' churches. At the front, where the boys are face to face with the great realities, the men turn eagerly enough to men who can talk to them of big things in a manly way.

"There are no creeds at the battle front; priest and rabbi and minister work side by side, and the hut is the soldiers' church for all. When we are asked to give \$15,000 to the \$170,500,000 fund that is being raised to be used for work among the boys, we should contribute willingly and liberally, feeling that it is our privilege to uphold the march of nearly 4,000,000 boys away from home and depending upon us."

**Come on Wilbarger County! back up our boys by supporting these seven great morale making organizations**

### WHY YOU SHOULD GIVE TWICE AS MUCH AS YOU EVER GAVE BEFORE!

The need is for a sum 70 per cent greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved. Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919

their:

3600 Recreation Buildings.  
1000 Miles of Movie Film.  
100 Leading Stage Stars.  
2000 Athletic Directors.

2500 Libraries supplying 5,000,000 books.  
85 Hostess Houses.  
15,000 Big-brother "secretaries."  
Millions of dollars of home comforts.

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theater, a cheerful home, a store, a school, a club, and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply the physical needs.  
Now give to maintain the Morale that is winning the war!

## WAR WORK AND OTHERS.

Our fifth readers used to tell us "It makes all the difference in the world whose ox is gored." The statement is proving true in the experiences of the Labor Board in an effort to secure men for the industries declared necessary to winning the war.

Men (and women) who have insisted upon their loyalty to the Government are, in some cases, playing the part of obstructionists in the matter of getting workers for munition plants and other similar industries.

Men say, "Why, Bulgaria is out, Turkey is out, Austria is out—the war is practically won." Apparently that is true. Doubtless Germany can not face the united armies of the Allies. However, Frederick the Great stood alone against the world for seven years, and if we read history aright his situation seemed almost as desperate as that of the House of Hohenzollern.

But granting that Germany must agree to a peace pact, no observing man will deny that Europe is smoldering. Selfish interests are being urged, and fantastic doctrines are being preached. A repetition of the French revolution on a scale that would dwarf the original is by no means impossible.

Undoubtedly men in Vernon can not know the demands of the situation. Surely this is not a time to parley with the Government. Team work must continue if we are to restore the world to peaceful endeavor. War industries can not stop.

Before the epidemic of Spanish Influenza swept the country, there was a shortage of 119,000 men in munition plants alone, and the shortage in allied industries brought the total up to 1,200,000. Many workers have been taken from their post by disease. November draft calls will withdraw some more, and with an increased number in army camps the number engaged in war industries must be increased.

Surely it ill becomes any man or woman in Vernon to talk against the efforts of the Labor Board to meet the demands of our Government for men. American will not do less than England. It should shame us to cavil about doing less than France. And The Record does not believe Vernon is willing to fall below the standard in this cause. As yet, however, we have not approximated France, England, or Canada in war work.

If we do not see how we can spare a man for work in war industries, the least any loyal citizen can do is to refrain from obstructing the work by talking against it. Besides being a grave offense, it is being planned to let the Wilbarger county men who have shouldered their rifles know when they come home just what men here were doing in the way of furnishing war workers to back them up on the fighting lines.

## STABILIZING COTTON.

Fair-minded men everywhere must approve the action of the Texas Bankers Association gathered at the Adolphus Hotel in Dallas in urging the Government to stabilize the price of cotton.

## FOSTER'S WEATHER BULLETIN

(Copyrighted by W. C. Foster)

Washington, D. C., Nov. 8.—Last bulletin gave forecasts of disturbance to cross continent Nov. 14 to 18, warm wave 13 to 17, cool wave 16 to 20. This will cause very severe storms, an increase of precipitation, extreme temperatures; frosts farther south than usual.

Next warm wave will reach Vancouver about Nov. 18 and temperatures will rise on all the Pacific slope. It will cross crest of Rockies by close of Nov. 19, plains sections 20, meridian 90, great lakes, middle Gulf States and Ohio-Tennessee valleys 21, eastern sections 22, reaching vicinity of Newfoundland about Nov. 23.

stabilize the price of cotton. These financiers urge officials in Washington to announce that, while it will not fix the price on cotton, it will limit and restrict speculation in cotton futures, and do all possible to increase ocean tonnage now available for the shipment of cotton.

Due to restricted transportation facilities and failure of Government officials to announce a definite stand on price stabilization the cotton market has been thoroughly demoralized during the last thirty days. Undoubtedly this condition, taken advantage of by the speculator, if permitted to continue, will result in heavy losses to the farmer, banker, cotton factor, and many other enterprises of the South.

Because of the exigencies of war which makes it impossible to secure bottoms to carry cotton to European countries, the need for cotton in Europe can not assert itself in the form of a price stabilizer. Surely, while this situation exists speculators should be permitted to unduly depress the price of cotton. We can not believe that a just Government will permit that any more than it will permit the speculator to profiteer from any other war necessity.

## REPUBLICANS WIN NATIONAL ELECTION

The Republicans apparently will control both branches of Congress as a result of the elections Tuesday. Latest returns give the Republicans 236 seats in the House, as against 195 for the Democrats.

In the Senate the Republicans are assured of 48 seats, the Democrats 46, with two in doubt. The doubtful races are in Michigan and Idaho, the late returns indicating Republican success in both cases. The Democrats would have to capture both of these places to tie the Republicans in the Senate.

Early reports said Speaker Champ Clark of Missouri had been defeated, but later figures showed him to be re-elected by a somewhat larger majority than usual.

Unless called in special session the new Congress will not come into power until December, 1919, but President Wilson will be compelled to finish the last half of his second term with an opposition party in control of the legislative branches of the Government.

## WOULD FORM HOME EFFICIENCY CLUBS

WOMEN TO MEET IN LIBRARY BUILDING TO DISCUSS DEMONSTRATION WORK.

Miss Helen Higgins of A. & M. College will be in Vernon Saturday to co-operate with Miss Ohmie Wilcox in the organization of a Woman's Home Demonstration Club in Vernon. The meeting will be held at 2 o'clock Saturday afternoon in the rooms of the Chamber of Commerce in library building.

Mrs. Dora Barnes, district agent, who was here last week, urges complete organization of all women in Vernon and Wilbarger county in home demonstration clubs, just as the girls are organized. From recent conversation with many of the women individually and at a called meeting of the presidents of the various clubs for women in Vernon, Miss Wilcox is certain that the women are anxious to take up this work on some definite basis.

Under present conditions the work is so broad and the calls so many that Miss Wilcox is unable to help each one individually, as she would like to do, while if they are organized into clubs as Miss Wilcox hopes to have within a short time, one demonstration of each thing desired by members can be given, making it possible for more demonstrations to be given and better work to be done.

"No one is barred from this organization," Miss Wilcox says. "Every woman is expected to become a member and help make the home more efficient. We believe that the women realize that we, as women, have a greater responsibility during the present struggle than we ever had in learning and practicing home economics, not only in the various methods of conserving food, which of course is the housewife's greatest duty, but in conserving time, energy and health.

"Now, your first duty is to help us by making a special effort to be present Saturday afternoon, and see that your friends and neighbors are present. The time is 2 o'clock."

Be Wise.

## RED CROSS TO VOTE ON EXECUTIVE BODY

OTHER NOMINATIONS THAN THOSE SUBMITTED MAY BE MADE WITHIN 7 DAYS.

The local Red Cross will vote on an Executive Committee for the coming year November 20 in the Carnegie Library. The following notice of election has been received from the Wilbarger County Chapter of the American Red Cross, by Mrs. Bertha A. Ross, secretary.

"Notice is hereby given that in accordance with the rules of the American National Red Cross, a nominating committee appointed by the Executive Committee of this Chapter has nominated for membership on the Chapter Executive Committee for the ensuing year the following persons, all of whom live in Vernon: L. G. Hawkins, Harry Mason, W. H. Huggins, and Mmes. S. E. Lloyd, N. R. Heath, W. H. Huggins, B. J. Parker, W. T. Rouse, J. V. Townsend, S. W. Bailey, O. T. Warlick, and A. S. Ross.

"Any other nominations may be made within seven days in writing by a letter addressed to the secretary and signed by ten or more members in good standing of any branch or auxiliary within this chapter jurisdiction. Such names will then appear on the formal ballot along with the names above selected.

"The twelve candidates who shall receive the highest number of votes shall be declared elected to membership on the Chapter Executive Committee."

The Executive Committee will elect officers.

## Rayland News.

Rayland, Nov. 7.—(By special correspondence.)—Bert and Bob Abston have sold their garage and blacksmith shop to A. T. Beazley.

Ralph Gregg is very sick with the influenza.

Dr. Minnie O. Parrish and daughter, Mrs. John Abbott of Vernon, spent last Sunday with Mr. and Mrs. Bill Parrish. Preaching was called off at the Baptist Church Saturday night and Sunday on account of the influenza.

Mr. and Mrs. A. J. Haney and daughter, Miss Ethel, of Vernon, spent Sunday with Mr. and Mrs. Ben Haney.

Lee Jordan and family were in Vernon Saturday.

Ransome Prescott and family left last Saturday for Memphis, Tenn., to make their home.

Miss Dora Young received a letter from her cousin, Private Frank Ter-

rell, of Company I, 142nd Infantry, stating he had arrived safely in France and had seen some beautiful country since he had landed. Private Terrell also states he doesn't believe he will ever learn to speak the French language as it sounds so queer.

Misses Dora Young and Amy Davis were in Vernon Saturday.

Mrs. A. T. Beazley is ill this week. Mrs. Joe Haynes, who has been very low with Spanish Influenza, is improving slowly.

Rev. Gattys of Margaret was in Rayland Friday on business.

A. K. Edens and family of Thalia spent last Sunday with B. P. Abston and family.

The cotton is opening up very fast since the rain. Everyone is wanting pickers.

The people here all went to Vernon Sunday afternoon to meet the 4 o'clock train to get the latest war news.

Mr. and Mrs. Claude Davis received

a letter from their son, Arthur, stating he had arrived safely overseas. He says they had a mild sea. The first day or two the boys were awful sick, but all landed in high spirits, anxious to get to the trenches. Young Davis is a private in the field artillery and was trained at Fort Sill, Okla. He left the first days of September.

Mrs. B. P. Abston and baby, who have been very sick for the past two

weeks with Spanish Influenza, are improving.

## LACK OF INTEREST IN WAR INDUSTRIES HERE IS DEPLORED

Traveling Examiner Says in San Antonio Men and Women Refuse to Trade With Firms That Are Unwilling to Release Men for War Work—Says We Must Follow President's Lead.

M. L. Bates, traveling examiner for the Department of Labor, was in Vernon this week looking into matters in connection with the work of the local Labor Board.

Mr. Bates urges the necessity for following the lead of President Wilson in this matter, and calls attention to the fact that our boys must stay in Europe, prepared to fight. This means that men must be secured to keep war industries going.

Speaking of lack of interest in helping secure laborers for essential war industries, Mr. Bates says that examiners from the East are actually horrified at the sentiment in this part of the country. In the East the sentiment is so strong against able-bodied men holding any situation that a woman can fill that men and women have boycotted firms refusing to let men go for war work. The same situation exists in San Antonio, the examiner declares.

Mr. Bates says that the Department of Labor is the sole and only authority empowered to designate what are non-essentials. This power was given them, Mr. Bates explains, by the War Industries Board at Washington.

After the list has been promulgated if an employer refuses to take up essential work, Mr. Bates says in explaining the working of the Board, it will be the duty of the Board to take up the matter with the employer; then, if the employer is unpatriotic enough to refuse to release him, the name of the business will be sent to the Federal Labor Director for the State of Texas, who will, in turn, take the matter up with the War Industries Board at Washington, and they will see that his supplies are cut off.

Mr. Bates warns that it is the same offense to obstruct or interfere with recruiting of labor for war industries as it is to interfere with the working of the selective draft. The authority of the Labor Board includes all men, regardless of age or classification. The Labor Board may go into fifth class, so far as the selective draft rating is concerned, and take a man if he is needed. Alien enemies are also included in its powers.

There was a shortage of 119,000 men in the munition plants alone before the epidemic of Spanish Influenza started, Mr. Bates says, and a shortage of 1,200,000 in other war industries. It is naturally supposed that the shortage is greater now.

Men from this section are being sent to Nashville, Tenn., where one of the largest munition plants in the world is being completed. Living conditions in Nashville are said to be very ideal, at least much better than in most other cities.

"Above all things, do not get out of humor with your local Labor Board," Mr. Bates warns. "The Labor Board is working under orders from the Government. One member of the Board represents the employer, another represents labor, and Mr. Parnell is the direct representative of the Government in all labor matters."

### JOHN CRAWFORD WOUNDED.

Vernon Boy Says He Went Over the Top Three Times and Got "Small Scratch."

Mr. and Mrs. J. R. Crawford are in receipt of a letter from their son, John, saying he is getting along fine, although he has been in the hospital several days. The Vernon boy is in the Thirty-Sixth Division.

"I went over the top three times and have one small scratch so far. They will transfer me from this hospital today to one further back of the lines," the Vernon boy writes.

"I was in the front line trench and got wet, and stayed that way for eleven days and nights. All of the time we were within about 200 yards of the Boches. It certainly is interesting to watch the Dutchmen out in no man's land."

"This is a fine farming country. The soil surely is rich, and I know papa would like it, but I advise him not to come over here."

"The girls surely are good to us. They seem to think more of us than anybody else in France. I have met a French girl, and while I haven't fallen in love with her yet, I am in pretty good shape to do so."

John thinks the war will be over soon.

## DR. POWELL SAYS CAN'T EXAGGERATE GERMAN CRUELTIES

Speaker Home From France Says Children in Bread Line Could Not Get Food If They Appeared Normal—A War for Democracy, Religion and the Home, He Declares.

"The greatest thing about an American is that he never knows when he is whipped, and no man ever is beaten until he admits it himself." These are the words of Dr. Lyman P. Powell, who spoke at 2 o'clock Wednesday afternoon in More's Theater in the interest of the campaign for funds for the United War Work activities. Dr. Powell is a noted author and lecturer, and just returned from France.

Dr. Powell introduced his talk by the story they tell in France of an American captain who was called by his superior for permitting his men to go ahead too fast. "Well, if the Germans can't stop them, how do you expect me to do it?" the captain asked.

"America was slow in coming into this war because we could not conceive it possible that any nation would do the things they said Germany was doing," Dr. Powell continued. "But those of us who have been over there know that no matter how much you may say you can not tell it all."

Referring to the bread lines in Belgium and France, Dr. Powell declared that he had the words direct from Ambassador Brand Whitlock, that if a child appeared normal or a little girl had any color in her cheeks no bread was given that day. Such a one was told to "come back tomorrow." The little ones had to appear gaunt and under-weight if they were given food.

Just after Dr. Powell landed in England forty German biplanes engaged in a bombing raid over Charing Cross Hospital. In Charing Cross hospital wounded German soldiers were receiving exactly the same care as wounded Italians, New Zealanders, Australians, French, British, and Canadians. But the German idea of frightfulness was to destroy it, and for more than two hours the German machines hovered over the place dropping bombs. Although 200 women and children were killed, fortunately the anti-aircraft marksmen kept the airplanes so high that they did not get a bomb on the hospital.

"This is a war for civilization," Dr. Powell declared, "and it is not nearly over. Even after Germany surrenders the stabilizing of Europe and its rebuilding will take many months, and will keep our boys over there a long time."

Continuing, the speaker declared that civilization is made up of three things—democracy, religion, and the home. He insisted that we are in a great war to determine whether the future is to be shaped by democracy or autocracy.

Referring to the vandalism of the Huns, Dr. Powell told of visiting the devastated district. He said for 100 miles in Northern France not a tree had been left standing. Referring to the celebrated "Cedar of Lebanon," which is said to have been planted more than 2,000 years ago, the speaker told how a German princeling had pitched his hunting lodge on the slope of St. Quentin, and when he found that this tree, under which tradition says Julius Caesar, Charlemagne, Joan of Arc, and Napoleon rested, obstructed his view of burning towns, the War Lord had it cut down, leaving the stump about three feet high. This he had planned off for a gaming table for himself and his officers.

Dr. Powell visited a town which was standing before Columbus discovered America. "You could not have told there had ever been a town on that spot," the speaker declared, "because the Germans had razed every wall, and if they were of brick and some of the bricks not broken, then guards were sent with hammers to pulverize the bricks so they could never be used in rebuilding."

The climax of the story was when Dr. Powell told how the Germans herded all of the women and girls over 13 years old into a central market place, and after the commander had picked out the most beautiful and said "she's mine," he told the others they would be taken to Germany for "work." Two old men hobbled up and begged the officer not to take their wives and daughters, agreeing to go themselves. The officer answered their plea by a command to fire and the two old men dropped dead. When some of the women made an outcry, the German officer ordered a priest standing there to "tell them in the name of God to hush." The priest refused to associate God with such a proceeding, and he, too, was shot down.

Six hundred and ninety-two towns in France and Belgium have been devastated, Dr. Powell declared.

"The first line can not fight if we of the second line do not keep up the

reserves," Dr. Powell insisted. "The Y. M. C. A., Y. W. C. A., and all of these other organizations must be kept going to help restore the men to normal conditions after they come out of the fighting lines. I am sure Will-hanger county people will give the small amount of \$15,000 asked for all of these organizations."

## Influenza Worse Than Hun Bullets

Claiming More Victims Than Battle Fronts of Europe—Disease Can Be Avoided.

According to carefully compiled statistics it is an indisputable fact that the Spanish Influenza Epidemic which is now sweeping all parts of the country is daily claiming more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt. According to leading authorities the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish Influenza, which is one of the most contagious diseases known.

It is persons who are suffering from lowered vitality, who are weak and rundown and who have not the strength to throw it off who are the earliest victims. Persons who have had colds, who are suffering from catarrhal troubles, or inflammation of the mucous membranes are especially susceptible, as the inflamed mucous membrane linings of the nose and throat are an open door to the germs. This condition is almost always accompanied by a weakened condition of the system.

If you are suffering from any of these symptoms, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

This statement is easily proven by

the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years time over Ten Million Bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the above troubles with the most astonishing and gratifying results.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way.

In connection with the Tanlac Treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle.

## OPPORTUNITIES OF A LIFETIME

Never before have there been such opportunities for young people. Thousands of trained workers, book-keepers, stenographers, typists and clerks, are needed by the government and private business, and salaries were never so great. Capable graduates, both men and young women, without previous business experience are receiving salaries of \$1200 to \$1500 per year. The young man or woman who works for the United States Government has exceptional advantages. He is given not only an exceptionally high salary, but has easy hours, 30 days vacation with full pay each year; in case of sickness, four weeks with full pay are allowed if needed, and splendid opportunities are afforded for advancement to places of trust and responsibility. The privilege of living in Washington is of itself a great education. We guarantee our students to pass the Civil Service examination.

Join our school and prepare for a government position. Only the most approved systems of instruction used.

## UP TO ALL OF US

The big war affects nations; affects nations, that is, in the aggregate.

But there are individual problems to be solved also.

It comes down to all of us, when our families are to be supported.

The cost of the war to us and the high cost of living makes it very essential that we should conserve in every way possible.

You can save a few dollars each month by buying your groceries at the Peoples Cash & Carry Grocery. We carry the best grade of goods and sell them for less money.

We don't charge accounts or deliver goods, therefore can save you this extra expense.

## WILBARGER COUNTY POLLS LIGHT VOTE

### AMENDMENT PROVIDING FREE TEXT BOOKS IN PUBLIC SCHOOLS IS VOTED.

Only 500 votes were cast Tuesday in twelve precincts in Wilbarger county. No report has been filed with the county clerk from Odell, Harrold, Ronda, Guyer, or Farmers Valley.

In the two Vernon precincts there were three votes cast for Charles A. Boynton, republican candidate for governor, and a like number were given Wm. D. Simpson, candidate on the socialist ticket. The percentage of vote against Governor Hobby over the county was about the same.

Fewer than 300 votes were cast for and against the two amendments, providing for free text books in public schools and the prosecution of criminal

cases by information or indictment, and taking of testimony by deposition under certain circumstances. Both propositions received a majority of about four to one.

Clois L. Greene was elected to succeed Rex Boyd and J. M. Luttrell takes R. Cobb's place as commissioners from precincts numbers 1 and 4, respectively. C. M. Blair takes the place of R. V. Parr as tax collector, W. C. Anderman succeeds R. W. Walker as county treasurer, and J. N. Fulcher is county superintendent, succeeding L. A. Hollar.

## Kirschbaum All-Wool Clothes

### You Can Feel at Home in the Sort of Clothes We're Selling

They are so completely right, so perfect in fit, so clever in style, they give you that "just right" feeling. And after all, comfort in clothes is as important as anything else.

### FITFORM

clothes for Young Men will take care of you better than others. That is our judgment; and we have seen them all.

We have found FITFORM means the best in style and in making.

### Clothes Satisfaction is Guaranteed at This Store

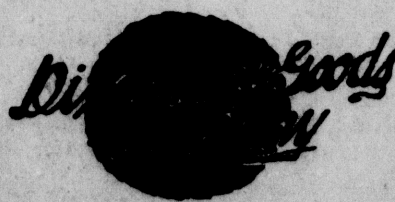

The commander of an army is ready to back his men to the finish. He knows they'll be there with the goods at the crucial moment.

We're dealing in clothes, not men, but we're ready to back them to the limit, because we know they're of a quality that can be depended on.

The name Hart Schaffner & Marx in every garment is a guarantee of fine all-wool materials, of good reliable tailoring and of styles that are right. You can rely on these clothes for long service.

In the picture, at the left, you see a sport suit with the military back and seams at the waistline, on the sides and in front; we'll show you others.

At the right is a 2-button Varsity suit with slanting pockets; a simple refined model that's exceedingly stylish yet wastes no cloth.
